Roundabout Seminar November 10 at St. Mary's Hospital Medical Center

Traffic experts ready for all roundabout questions

(Green Bay) A meeting to provide information about roundabouts is scheduled for Wednesday, Nov. 10, from 5 p.m. to 8 p.m. at St. Mary's Hospital Medical Center in Green Bay. Anyone is welcome to attend the event, and there is no cost. The seminar is all about roundabouts: what they are, why they are being built as part of the US 41 Project and what motorists need to know about driving through them. It will be an "Open House" style meeting, so anyone can drop in at any time. Wisconsin Department of Transportation (WisDOT) staff will give brief 15-minute presentations each half hour and be available to answer questions.

St. Mary's Hospital Medical Center is located at 1726 Shawano Ave., Green Bay. Please use the hospital front entrance.

Roundabouts are relatively new to Wisconsin, and up to 28 of them are being built in Brown County as part of the US 41 Project. While they are easy to navigate, there is a learning curve for motorists who are new to them. This meeting is part of an overall outreach campaign by WisDOT to educate motorists about roundabouts.

For more information about the US 41 Project and the roundabouts that will be part of it go to www.US41wisconsin.gov and click on "Overview" then "Special Project Features."
